BASE BALL COMMENT.

Fort Wayne will have a candidate for the presidency of the Interestate league in the person of Mr. William Meyer, jr., and a strong fight will be made at the league meeting for his election says yesterday's Fort Wayne Journal Gazette. It was learned that Mr. Meyer has had the presidential bee buxzing in his hat for some time, but he was careful to prevent its buzzings being heard by any one else as he wanted to spring it suddenly on the base ball world. Mr. Meyer is an old head in the base ball business and is familiar with all the points of the game. He has been identified with the base ball interests of Fort Wayne for years and was one of the prime movers in organ-Meyer has always shown a perfect sporting spirit in all of his base ball dealings and every man who has been connected with the game in this league cannot but have a good word for him. Mr. Meyer has the assurance, he says, of four votes. Of course President Mautner, representing the Port Wayne club will not only vote for Mr. Meyer, but will do all in his power to throw other votes for him. Then Frank Armour, of Dayton, Frank Torreyson, of Columbus, and Charles Stroble, of Tooleda, all of whom are Mr. Meyer's warm friends, will lend their interests in his behalf. sporting spirit in all of his base ball

There is now little doubt that the Western League of professional base ball clubs the leading minor organisation of the country, will start the sea-son of 1900 with a team in Chicago. It is also practically certain that Tom Loftus, who has been named as a nomad for some time, will bring his from a for some time, will oring as Grand Rapids franchise to Chicago and be the head and front of the Western League team. It is probable, too, the Western League will attempt to strengthen its circuit by placing a team either in Cleveland or Toronto. It is known that several of the Western League magnates are greatly in favor of accepting the National League terms and taking the Cleveland territory of the major body's hands. If this is done there is no doubt that Charley Comistey, now at the head of the St. Paul team, will be placed in charge of the players in the Forest City. If all these things are true there may be three base ball teams in Chicago at the start of the season of 1900. It is no doubt the intention of the National League magnates to have matters so fixed that the Western League team will be playing here while the National leaguers are on oreign grounds. This will occupy the territory during the entire playing sears son and leave no open dates for the new league. Grand Rapids franchise to Chicago and

THE SHAMROCK IN ACTION. The Cup Challenger Again out on a

Practice Run.— NEW YORK, Sept. 20.—All the forenoon was spent by the Shumrock's crew in bending a new main sall, one with cloths running from head to foot in the regular way. Finally the Sham-rock's main sail was hoisted and she started from her moorings at 2:40 p. m. under her own sall in a light air from the northwest. In Gedney's channel at 3 p. m. she took a line from her tender, the Lawrence, and was fowed out clear the Lawrence, and was fowed out clear of the east end of the channel, when her great club topsail was set and she was headed for Scotland lightship Five miles was the extent of the Shamrock's sail to-day. The starting time 4:12 was taken when she passed Southland lightship going at an eleven knot clip and with sheets trimmed well down on the starboard tack. She finished, soling at about the same speed at 4:37:15 So the trial only lasted 25 minutes and 15 seconds. The close reach occupied 12 minutes and 4 seconds, and the reach back with sheets started a couple of points, lasted 13 minutes 11 seconds. The wind was fairly steady at about twelve miles an hour and from about west by south during the trial. Those who watched her closely to-day say that she salled as fast as on any of her previous trials. The Shamrock will go out again to-morrow, weather permitting.

The Shamrock carried, besides her

ting.

The Shamrock carried, besides her main sail and club top sail, a number two jib top sail, jib and forestay sails.
